

### **Facilitate Mission Statement Acknowledgment**

Facilitate was founded and built with the purpose of bringing transparency to the roofing transaction to provide the absolute best price for a quality roof that meets or exceeds the manufacturer's specification.

This process will make the actual material, labor, project manager fees and Facilitate fees, as well as any other required costs visible to the homeowner and insurance company.

Facilitate provides a platform by which the homeowner can purchase all elements above separately and invoice the insurance company as the contractor for the amount of money offered by the carrier. Doing so will result in the homeowner paying their deductible to themselves, as the deductible is a part of the cost of the roof, and potentially profiting from the claim as you are the acting contractor in the claim. Facilitate's interest is in providing the best price for the roof and hopes to save as much money for the homeowner and insurance company in an effort to keep future insurance costs down and streamline the claim to build process.

**Do you, the homeowner, understand this business model and agree to allow Facilitate to assist you in contracting the replacement of your roof using this method?**

**Yes    No**
